IAHE Taiwan Chapter News

§ Message from Chapter President §

I am pleased to announce the establishment of Taiwan Chapter for IAHE on February 17, 2010. As a window for IAHE to hydrogen professionals in Taiwan, we are happy to convey this platform for closely linking those exciting development toward hydrogen economy ongoing locally and over the globe.

The Chapter is hosted by Feng Chia University (FCU) in Taichung, Taiwan. The kindness of FCU by offering three full-time staffs, over 300 m² office and lab space and sufficient financial support is highly appreciated. FCU also hosted the APEC BioH2 Research Center (www.APEC-bioh2.org) and the Asia Bio-hylinks (www.asia-biohylinks.org), thereby providing a unique chance for clustering the planned activities of the Chapter with those that will occur locally.

As the founding President of Taiwan Chapter, I witness its birth, and look forward to its rapid growth in the near future. All IAHE members are welcome to link to Taiwan via this Chapter. We will be more than happy to serve your needs.
